

GREEN EARTH VISION

2018 PLANNING EVENT

Green Earth Visions 2018 Planning Event is a 4 day / 5 night event offered to a select few people before years end. Within this event you will get to experience Games and Processes that help run the heart of the operation. Organic Vegetarian Dishes. During this event you will discover a snapshot of the Immense Vision for a Green Earth Given by the owners of Green Earth Vision. You will get access to a yoga session each day. And finally you will be able to plan your 2017 with other world contributors. We will mastermind, and vision out our plan for the year. You will leave with an accountability partner and a very clear idea of our projects in Costa Rica. We respect and promote private time in between sessions for reflection. We also will take time to enjoy the beaches and beautiful nature surrounding our location.

Guests will participate in:

- all levels yoga sessions
- meditation sessions where you can focus on posture, breathing and positive thinking
- heart clearing and true life path personal coaching sessions
- mastermind sessions
- self expression
- creative energy
- full potential meditations
- two vegetarian/healthy meals that are prepared and served daily

Extra workshops and activities can also be incorporated into daily schedules:

- The Raindrop spa for massage and body treatments
- Surfing lessons
- Manuel Antonio National Park
- Horseback riding

By the end of the event you will feel balanced, be enlightened and have re-assessed where you want to be in life and what you want from your time on this planet. We will stick around for a few days after the event

ABOUT OUR RETREAT CENTERS

We are located in the Central Pacific zone of Costa Rica completely surrounded by nature and lush vegetation (*expect to spot wildlife such as monkeys and iguanas!*)

A perfect atmosphere for healing and growing.
