## Universal Agreements - How they work

Much like the Declaration of Independence, every society, organization, group, and any venture is always started with a set of Agreements. At some point in history it was decided that it was okay to force others into your agreements. These became laws. We are now releasing the slavery mentality and all of the suffering it has created. We are coming back to center, back to synergy, and are not using force in any of our systems we are creating from here on out. Agreements both protect and support all involved. A Universal Agreement Field defines who is in our tribe and who are our allies with the same shared vision for the future.

### Universal Agreements Include:

- Universal currency and fiat currency
- How to gain alignment (suggested process only)
- How to set new agreement fields
- Exit strategy - (what happens when someone does not follow agreements)
- An offer to the collective / a shared pot / a place for each organization to donate and/or plug into the consortium
- Guidelines for teams forming including a few teams to help hold the Universal Agreement Field in place and a plan for how the collective will support the team and the team will support the collective
- Aligns with world intention
- Changes with collective consciousness.. very slowly and subtly
- The most room here to allow others with similar missions to proceed how and where they want
- Space creating for New Paradigm Projects to call home
- A common and equitable playing field for New Paradigm Spaces

Then next level is Space Agreements. These are applied to each space and/or time within the Universal Agreement Playing Field. They are in alignment with the Universal Agreements. Culture code is also considered a space agreement.

### **Space Agreements Include:**

- Aligns with community intention
- Times associated with event
- Use of Spaces for events and General Situations
- Ways of communication, energy, time, and protocols
- Other Currencies
- How much \$ and which currency is required to participate
- Other currencies for contributing \*(example: time, professional expertise, reciprocal value)
- Goes for everyone within a space/time

### **Personal Agreements Include: \*(We do not regulate Personal Agreements)**

- Anything that is in the personal domain and does not need to be agreed upon with others
- Personal agreements can change rapidly with things like injury, mood, sickness, epiphany, sensing of danger or boundaries.

### **Organizational Agreements:**

New Universal Agreement Fields and Organizational Agreements help us in working together in Teams. Teams are important to help the tribe move forward, reciprocate, and create value through building a better world. When you begin to interact with others towards a common goal you will need to form your Organizational Agreements first.

With the Initial Declaration of Agreement Calls, we will only cover Universal Agreements. We will provide free coaching and help each space create it's own Space Agreements. And furthermore, within the Universal Agreement field we will have choices of Organizational Agreements to choose from when forming Teams.

### **Organizational Agreements Include:**

- Shared Income and distribution plan
- How to Organize, communicate within and between groups
- Purpose definition for intention of the organization and how this fits into the Universal Collective field
- Offer to the collective
- Governance, culture code, and decision making
- How to form teams and how the organism evolves and splits
- Exit strategy for the organization

**WHAT TO DO NEXT:**

*Let the person who gave you this invite know you are in alignment  
Then, you will be sent the Declaration of Agreements*
